A personalized story of major top 3 gene pools as well as The reason why people migrated from these places with history.

## Your Name's Ancestry timeline-

### Migration Story A (Red Migration)

your ancestors came from Pakistan prior to 568 AD (48 generations before your ancestors came from Pakistan)

Time: 568 AD - 1423 AD (In between of 48-20 generation red migration happens)

Your Ancestors DNA originated in this area nearby somewhere Islamabad, Pakistan. Geological coordinates of this area is-

Latitude: 30.143 Longitude: 70.876  
Radius: 81.8358 miles  
GPS Coordinates are- 30° 8' 34.8" N 70° 52' 33.6" E

After travelling all above regions your DNA journey is stable at Peshawar, Khyber Pakhtunkhwa. Geological location of this area is-

Latitude: 35.033 Longitude: 72.979  
Radius: 51.7747 miles  
GPS Coordinates are- 35° 1' 58.8" N 72° 58' 44.4" E

From Above location your ancestors move to the location somewhere in Airstan Tarin Kowt Afghanistan. Geological location of this area through which your ancestor's DNA traveled is-

Latitude: 33.697 Longitude: 67.49  
Radius: 158 miles  
GPS Coordinates are- 33° 41' 49.2" N 67° 29' 24" E

## Your Name'S Ancestry timeline-

### Migration Story B (Blue migration)

your ancestors came from Bangladesh prior to 612 AD (47 generations before your ancestors came from Bangladesh)

Time: 612 AD - 1453 AD (In between of 47-19 generation blue migration happens)

Your ancestor's DNA originated in the area somewhere near to Baira Dangi Maldah, West Bengal. Geological coordinates of this area is-

Latitude: 24.676 Longitude: 88.045

Radius: 43.3718 miles

GPS Coordinates are- 24° 40' 33.6" N 88° 2' 42" E

After travelling all above regions your DNA journey is stable at Rajmahal, Jharkhand. Geological location of this area is-

Latitude: 24.958 Longitude: 87.774

Radius: 60.3976 miles

GPS Coordinates are- 24° 57' 28.8" N 87° 46' 26.4" E

From Above location your ancestors move to the location somewhere in Near to Karachi Jerruck, Sind. Geological location of this area through which your ancestor's DNA traveled is-

Latitude: 24.875 Longitude: 68.047

Radius: 158 miles

GPS Coordinates are- 24° 52' 30" N 68° 2' 49.2" E
